Freight**

## DYNAMIC VEHICLE DELIVERY →

A leading Oil & Gas company approached Regional Freight with an urgent requirement. One of their key vessels needed to collect 2 large consignments of marine survey equipment, but due to limited freighter aircraft liaison services, they were struggling to find a carrier able to meet these delivery timescales.

Regional Freight chose to arrange a charter flight, using our close relationship with trusted air carriers within the Mediterranean region. In a limited timeframe, we managed to:

- Source an appropriately sized aircraft for the freight size and flight duration
- Arrange the necessary flight permits
- Organise and briefed the aircraft crew with the flight plan
- Review the entire supply chain process in detail
- Manage all ground handling, security and documentation

We succeeded where other freight forwarding companies had failed to produce an adequate solution, meeting the vessel, which received the urgent consignments in time to deploy the equipment, in line with the constraints of the survey project. This outcome was achieved without going over the client's budget.

Regional Freight Services Ltd.  
Registered in England: 1589269  
VAT No: 363 6063 56

BIFA membership No: 875  
All business is transacted under B.I.F.A.  
Standard Trading Conditions  
(2005A Edition).
